

MUDTOOLS

RIBS

\$7.00 each

These ribs are made from a flexible material that performs well and actually gets better with use (it is a self-polishing). Five shapes to cover what handbuilders and throwers need from a rib. Each rib shape is available in four hardnesses. **Red/soft**, **Yellow/medium soft**, **Chartreuse/medium hard**, and **Blue/hard**. To order, list first letter of color and rib number. (Example **R1**)

RIBS for Platters & Bowls

Small Platter - Chartreuse/medium hard

Large Platter - Chartreuse/medium hard

Small Bowl - Red/soft, Yellow/medium soft, Chartreuse/medium hard, and Blue/hard.

Large Bowl - Red/soft, Yellow/medium soft, Chartreuse/medium hard, and Blue/hard.

SS-L18 (18 teeth per inch)

\$7.00

SS-XL (smooth)

\$14.00

HAX Tool

(5.75" x 7/8")

Package of 2 - **\$10.00**

With it's 32 serrated tooth edge, extra fine scoring can be achieved on fine particle clays such as porcelain. The HAX tool is flexible, bendable, stainless steel.

MUDTOOLS

MUDCUTTER

\$35.00

The **Mudcutter** has been designed to go around a 4 inch pug, or an extrusion. The design lends itself to the slicing and cutting of handbuilt and wheel thrown works. It fits well in the hand. It also works great as a faceting tool. Mudcutter is made of stainless steel with a surgical stainless steel wire under tension. It is easy to change the wires, if needed. The handle has an insert made from the same material as the ribs. The tool is made so you can lay it in a bucket of water and it won't rust or degrade. This is a lifetime tool.

Available with straight or curly wire.

Replacement set of 3 straight wires:

\$9.00

Replacement set of 3 curly wires:

\$15.00

CARVING BOW (Small Mudcutter)

\$35.00

The carving bow is designed for cutting, texturing, and faceting all clay surfaces. The compact design gets you closer to your work and is available with a twisted or straight wire.

Available with straight or curly wire.

Replacement set of 3 straight wires:

\$9.00

Replacement set of 3 curly wires:
